N. C. A. FIGHT ON LAGOON RACE

Manager Rippetto Threatened With All Kinds of Things if He Does Not Submit.

BY W. D. RISHLE.

The National Cycling association, which is supposed to help boost the cycling game, is apparently doing everything in its power to prevent the success of the Lagoon road race, because Manager Rippetto of that race has up to date refused to listen to N. C. A. dictation. In other words, the N. C. A. has stepped in through its local representative, F. L. Gardner, and informed Mr. Rippetto that he must pay a certain fee to them, must pay 25 cents for each entry or make the rider pay it, and must allow the N. C. A. to name the officials and run the race. Up to date Mr. Rippetto has told the N. C. A. that he is running his own business and intends to do so.

There is scarcely an unbiased cycle fan in the city, or to put it more plainly, scarcely a cycling fan in the city not financially backing up Mr. Rippetto. The entry list of eighty riders, the largest that has ever entered in a Lagoon race, would indicate that the bike riders are also with Mr. Rippetto. The size of the crowd on the observation train will to a great extent tell whether the public is with Mr. Rippetto or not.

The Lagoon race was run long before the N. C. A. became an outlaw organization to fight the L. A. W. This race is one of the two in America which has never missed a single decoration day since the advent of bicycle road racing. For fourteen years it has been a success, clean in every detail, and now the N. C. A. steps in and insists on running it to suit themselves. And Mr. Rippetto, who has managed it for seven years, objects. The N. C. A. says it desires to protect the sport.

Question of Pure Amateurs.

For years the N. C. A. has paid cash prizes to the amateurs. It has been done with the knowledge, consent and by its local officers. The Lagoon race, under its present management, and always has been, the cleanest kind of an amateur contest, in the fullest meaning of the term. Yet the N. C. A. threatens to invoke the A. A. U. to its aid. It might be interesting for any of the riders, or others, who think this threat amounts to anything, to call up Elwood Brown of the Y. M. C. A., Coach Maddock of the U. of U., or Coach McKim of the L. D. S. U., heads of the leading amateur organizations of the city, and ask them just how much attention they will pay to the suspensions of the riders who attempt to force on the riders or officials.

No one will dispute for a minute that an organization, such as the N. C. A., should be, is a good thing for the sport. But suppose for a minute that Mr. Rippetto did as the N. C. A. is trying to force him to do. All of the riders would then be under N. C. A. control. Next year Mr. Rippetto and the Lagoon might apply for a permit to run the race they have fathered for seven years; and to whose untiring efforts the race has been made a success, and receive a polite note telling them the permit had been given to others and that the road race would be held to some other resort. It would be rather hard on Rippetto and the Lagoon people, who have fathered and protected the sport when it was down and out. Of course, it can be argued that the N. C. A. would not do this, but in the face of the manner in which they have handled out track franchises it is hard to tell what they would do, if properly approached.

Representative Gardner says he will blacklist every official of the road race. Manager Chapman of Salt Lake says he ever officiated at the road race cannot officiate at Salt Lake. Manager Chapman is working hard to force Rippetto under N. C. A. control and it is said has tried to get the Salt Palace to act with him. Manager Redman of the Salt Palace said yesterday that he was in Rippetto's place and would probably do as Rippetto is doing.

In the meantime entries for the road race are pouring in and if the weather man only gives his sanction, it will be the biggest event ever, says Rippetto.

DENVER'S BIG AUTO RACE

Speed Contest May Rival the Famous Vanderbilt Cup Contest.

Denver, May 27.—Over a triangular course thirty-two miles in length, ten powerful racing automobiles will run on Memorial day in the first Rocky mountain endurance race. The machines will start to run the measured road ten times, making a total of 320 miles distance to be traveled. Several of the machines entered have a record of ninety miles an hour and surprises are expected in speed and endurance. The first prize is a \$500 trophy and the second and third prizes also. In addition to the regular officials, there will be one hundred men strung along the course to keep it clear and guard against possible accidents. Most of the details of the contest will be the same as those prevailing in the Vanderbilt cup race and many of the drivers who will participate have taken part in that contest.

OGDEN SIGNS WESSLER.

(Special to The Herald.)

OGDEN, May 27.—George Wessler, Ogden's big second baseman, who has been playing this season with Butte, returned home today and will likely be seen in an Ogden uniform this summer.

S. S. S. A CERTAIN SAFE TREATMENT

S. S. S. is the only safe and reliable cure for Contagious Blood Poison. It is purely vegetable, made entirely from healing, cleansing roots, herbs and barks, and in addition to curing this vile disorder, S. S. S. builds up every part of the system. Mercury and potash cannot cure the trouble; they can only mask it in the system for awhile, and when they are left off the disease returns, usually, in worse form than before, and the patient finds he has damaged his health with these strong minerals, which disease the delicate lining of the stomach, affect the bowels, produce chronic dyspepsia and often set up Mercurial Rheumatism. It will not do to trifle with a disease so powerful as Contagious Blood Poison, for every day it remains in the blood it is progressing toward a dangerous stage, and will in the end get beyond the control of any treatment. S. S. S. cures blood poison in the right way, it goes down into the circulation and removes every particle of the virus. No bad results are ever experienced from the use of S. S. S. It is gentle and pleasant in its action, and forty years of cures warrant the statement that S. S. S. is not only a safe but a certain treatment. Home treatment book on this disease and any medical advice desired sent free to all who write.

CONELY NAMES ASSISTANTS

Fowler and Edmonds Are Assistant Referees.

R. L. Conely, referee at the Salt Palace, yesterday announced that he had selected William Fowler and Joe Edmonds as his assistant referees. Both are good men, and both know the game from beginning to end. Fowler, like Conely, is one of the oldest cycling officials in Salt Lake. He began his career as an official in Ogden fifteen years ago. At the time he was a prominent factor in the racing game. A rather strange coincidence in the selection of these three men as the highest officials at the track is the fact that Fowler and Conely officiated at the first meet in which Edmonds made his appearance as a bike rider. It was during the jubilee in 1897 at Beck's track Edmonds entered the race for boys under 16 years of age, and, with a liberal handicap, ran away from the field and won by a quarter of a mile. Edmonds afterward became one of the best riders in the city.

MURRAY ENTERS HORSE.

Felix Oberlander Rides From Evanston to Denver.

That Murray will enter a horse in the much-talked-of endurance race from Evanston, Wyo., to Denver, Colo., was demonstrated today when Felix Oberlander, a well-known Murray horse owner, left for the starting point with his horse, Gray Eagle.

The race, which starts on the morning of May 28, which is the first of its kind in the history of the state, each man being equipped with only his saddle, blanket and riding costume. Every fifty miles each horse will be examined by a veterinary surgeon, and if in good condition will be allowed to go on, but if not in condition will be barred from the race. Quite a little interest is being manifested in the Smelter City over the event.

GIMLIN MANAGES LOBSTERS.

(Special to The Herald.)

Ogden, May 27.—At a meeting of the local management of the persons in charge of the baseball movement in Ogden this year, held at the Weber club rooms yesterday, Fred N. Hess was elected president, George H. Matson, vice president, W. Fred Bosner, secretary-treasurer, and, together with Professor F. M. Driggs, composed the board of directors. J. Frank Glimin, better known as "Dad," was elected playing manager of the Ogden team.

AMUSEMENTS.

William Collier opens an engagement at the Salt Lake theatre this evening in "Caught in the Rain," which has been a pronounced hit elsewhere throughout the east. The engagement runs through the week.

The people of Salt Lake will have the opportunity on Friday evening next of lending their patronage to one of the worthy children of the city, who is endowed with a voice quite beyond the usual. Millie Williams is well known to almost all local music lovers and is expected to be tendered her under the lead of Professor Evan Stephens at Barratt hall should find most fitting recognition.

None of Utah's gifted children have brought more honor to the state than the musically endowed, many of whom have won wide and most favorable reputation. The musical training that a generous attendance upon this concert ensures will be a valuable asset in the development of a notable soloist.

C. R. Porter of New York, a camera-phone expert, is busily engaged these days installing the camera-phone at the Salt Lake theatre this evening in "Caught in the Rain," which has been a pronounced hit elsewhere throughout the east. The engagement runs through the week.

Today's Louisville Entries.

PASSING HOUR FOR STORMS

Weather Bureau Says There Will Be No More Rain for at Least a Whole Day.

The weather bureau predicts that the weather today will be fair. It bases its prediction on the fact that the storm center, which has refused to budge for so long and on the extreme edge of which Utah is, has now given way to coasting in front and pressure behind and has moved off.

Yesterday's official rainfall in Salt Lake was sixty-six one-hundredths of an inch. This, added to the 1.45 inches that fell during the rainy twenty-four hours after the total for the two days above two inches. A grand total has now been accumulated of nearly two inches.

The precipitation since the first of the year, which, until the first of this month showed a deficiency of nearly two inches, now shows an excess of an inch. And it is still raining, and there are some days left before the thirty-five year record of Salt Lake is kindly still, being neither hot nor cold.

City Creek is up to flood point, and J. T. Raleigh, superintendent of streets, fears a repetition of the disastrous floods of last year. He says that they will surely come if the rain continues.

The damage done to the streets of the city by the rains will amount to about \$500 in repairs, such as repaving, etc. Get the hook and a sample of Orin's F. J. Hill Drug Co., "The Never Substitutors."
